

Michael, Are you nuts? Did they promise you the state of Alaska if you would do this for them? This ruling will stop diversity of ownership dead in it's tracks and most probably reverse it. Once this takes hold, no more minorities will have a voice in this country. Democracy only exists while information about all aspects of government and commerce flows freely. You can't possibly think that this is good for the people. Please remember that a minority in the Republican party is like a deer in the NRA. Don't be fooled. Respectfully,
Lawrence Andrew Coletta
